**SECRET**PART IINARRATIVE SUMMARY1. INTRODUCTION.

a. GENERAL. During September 1968, III Marine Amphibious Force Headquarters was located in East Danang, Republic of Vietnam. The Average personnel strength was 154,730 a decrease of 4,575 under the previous month.

b. ACTIVITIES. III MAF continues to be guided by COMUSMACV letter of Instruction (LOI 3-66) dated 30 March 1966, in pursuit of its objectives for September 1968.

2. OVERALL EVALUATION. During the month of September III MAF units continued operations to deny enemy units entry into the I Corps Tactical Zone, and to deny enemy units the use of supply bases and staging areas for attack. Hostilities remained at a fairly high level throughout the month with III MAF units engaging the enemy in virtually every part of the ICTZ from the DMZ to Quang Ngai City.

In the Operation Lancaster AO, units of the 3rd Marine Division, on extended multi-battalion sweeps of the DMZ, exploiting the results of ARC Light strikes and supported by tanks and APC's have captured large quantities of supplies and equipment as well as inflicting heavy casualties on NVA units operating in the area.

Further to the South, elements of the 101st Airborne Division operating in the Vinh Loc area of Thua Thien Province virtually destroyed an important VC training area capturing nearly two hundred PW's and Chieu Hoi's.

Perhaps the heaviest fighting of the month occurred in the normally quiet areas of southern Quang Nam, Quang Tin and Quang Ngai Provinces. Here in a number of hard-fought encounters with elements of the 3rd NVA Division, units of the Americal Division and the Marine 1st Combined Action Group effectively blunted the enemy's attempt to mount a major offensive in southern I Corps, accounting for more than 800 enemy KIA in major unit operations alone.

Possibly even more damaging to the enemy than his losses in personnel have been the unprecedented losses in ammunition, machinery, medical supplies and food which he has suffered in recent weeks as a result of aggressive clear and search operations by III MAF units.

In some cases entire field hospitals with large quantities of medical supplies have been captured intact while in virtually all areas the enemy has suffered considerable losses in food and ammunition. This disruption of the enemy's logistic system is especially serious, from the NVA/VC point of view because of the enemy's critical dependence on pre-positioned supplies to support his operations.

During September III MAF initiated a total of four major unit operations; Operation Sussex Day, (1-9 September) Operation Champagne Grove (14-24 September), Operation Owen Mesa (26-30 September), and Operation Talladega Canyon (30 September). In all, III MAF conducted a total of fifteen major unit operations in the I Corps Tactical Zone.

## 5. Intelligence

a. General Enemy Situation. Enemy initiated activity on the battlefield in the I Corps Tactical Zone was generally light during the first three weeks of the month of September. The enemy continued to exert limited pressure on friendly installations and tactical units throughout all five provinces during the period, primarily thru small unit operations and harassing attacks by fire. Ground combat operations came to an almost complete standstill during the first week of the month as a result of adverse weather conditions caused by Typhoon Bess. Flooding in lowland areas caused extensive damage, particularly to rice crops in the northern two provinces, and seriously affected the enemy's already dwindling food supply. Major enemy tactical units in northern I Corps avoided large-scale ground engagements throughout the month, and as a result, friendly operations dominated action on the QUANG TRI and THUA THIEN battlefields.

The majority of enemy ground action during September was confined to the southern three provinces of QUANG NAM, QUANG TIN and QUANG NGAI, with the southern DANANG TAOR producing the most consistent activity. The latter part of the month saw significant increases in activity in southern I Corps as enemy forces subordinate to Military Region 5 conducted a series of coordinated attacks by fire and ground attacks against vital areas and key installations throughout the three southern provinces, and exerted increased pressure against the THUONG DUC Special Force/CIDG Camp.

The threat of large-scale enemy offensive action in QUANG TRI (P) was substantially reduced during the month of September as friendly operations throughout the province disrupted the enemy's plans, kept his forces off balance, and thwarted his efforts at preparing the battlefield. While major enemy tactical units generally avoided large-scale ground engagements, small probing actions/ground attacks and harassing attacks by fire characterized enemy combat efforts. Elements of the 3rd Marine Division engaged squad to company size enemy units, including elements of the 320th NVA Division, in a series of light to moderate contacts in the LANCASTER area northwest of the ROCKPILE where the majority of activity was concentrated during the month. The relocation of the entire 320th NVA Division south of the BEN HAI River was confirmed during the early part of the month. However, extensive Marine sweep operations in the DMZ north and west of the ROCKPILE during the latter part of the month forced elements of this division into an evasive posture and apparently necessitated their withdrawal back across the DMZ into southern QUANG BINH (P), NVN, to rest, refit and replace personnel losses. In this respect, it is interesting to note the fact that between 21-30 September, Marine units operating northwest of the ROCKPILE uncovered mass graves containing over 300 enemy bodies, the majority of which were believed to have been killed by tactical air strikes, artillery fire missions, and B-52 strikes. In addition the enemy suffered losses of

storage caches of food, weapons, ammunition, supplies and equipment as a result of search and clearing operations conducted throughout QUANG TRI (P) by U.S. and ARVN Forces during September. The NUI TIA PONG Mountain region north of KHE SANH yielded the most significant discoveries as elements of the 3rd Marine Division uncovered numerous large bunker complexes, defensive positions and huge caches of ordnance and munitions, thus confirming the enemy's use of this area as a major logistical staging complex. The northeastern portion of the province again produced the heaviest engagements of the month, as well as producing significant enemy intelligence. Five PW's captured northeast of CON THIEN in the KENTUCKY area during heavy fighting with elements of the 1st Brigade, 5th Mechanized Division on 11 September identified their unit as the 27th Independent Regiment, which has been identified in frequent contacts with friendly forces in this area since March of 1968. On 13 and 14 September, elements of the 2nd ARVN Regiment, supported by U.S. tanks and helicopter gunships, inflicted 200 casualties on a large enemy force in the GIO LINH area, identified by PW's as elements of the 138th NVA Regiment. These PW's further indicated that the 138th Regiment had assumed control of the 27th Independent Regiment's area of operations, due to heavy casualties recently suffered by the 27th Regiment. Elements of the 2nd ARVN Regiment inflicted an additional 103 casualties on the 3rd Battalion, 138th NVA Regiment, in the GIO LINH area on 22 September. The heavy casualties suffered by this regiment as a result of frequent contacts with friendly forces in northeastern QUANG TRI (P) during the past two months has affected the combat effectiveness of this unit and forced its withdrawal back across the DMZ into QUANG BINH (P), NVN, to rest, refit and replace personnel losses. Enemy forces, most likely elements of the 126th Naval Sapper Regiment, continued attempts at interdiction of the CUA VIET River during the month. Instances of river patrol craft receiving RPG fire were reported, and a mining attempt was preempted west of the CUA VIET Port Facility on 2 September when a concussion grenade thrown at a C-ration box floating in the water resulted in a secondary explosion which produced a 150-foot water spout. Incoming mortar, artillery and rocket fire fluctuated throughout the month with friendly tactical units and barrier installations along the DMZ receiving the majority of rounds. Heavy attacks by fire were reported on 2 and 3 September when elements of 3/3 USMC, 12 kilometers north northwest of Camp CARROLL, received a total of approximately 504 mortar rounds and 44 rounds of 130mm artillery fire; on 16 and 17 September, elements of 2/26 USMC received a total of approximately 404 mortar rounds. E/2/26 USMC suffered heavy casualties during these attacks. As a matter of contrast, no incoming rounds were reported throughout QUANG TRI Province on 6 and 7 September.

Little change was noted in the general enemy situation in THUA THIEN (P) during September as enemy initiated activity remained generally at a very low level. Continuing losses of storage caches, equipment, hospital complexes, medical supplies, and denial of base areas and rear service areas by friendly forces caused serious logistical problems for major enemy tactical units subordinate to MR-TTH during the month, and partially accounted

for the enemy's failure to engage in any major ground confrontations. Intelligence during the month indicated that some enemy units on the THUA THIEN battlefield were experiencing severe morale problems due to sickness, losses from air strikes, and inadequate medical supplies, shortage of food, etc. Local harassment, which characterized the extent of the enemy's capabilities, was concentrated mainly in the southeastern coastal lowland areas and took the form of scattered attacks by fire, ambushes, and attempts at interdiction of friendly LOC's, particularly Route 1. Several light to moderate attacks by fire as well as an enemy ambush of a 107-truck convoy were reported in the PHU LOC area between 18-20 September. The most significant activity of the month took place on the VINH LOC Island during the period 11 thru 20 September. A combined sweep operation conducted by elements of the 101st Airborne Division, 54th ARVN Regiment and the 12th Coastal Group killed 153 enemy, and captured 370 PW's as well as 175 assorted weapons. Many of these PW's were identified as members of several VC Local Force Companies from surrounding districts. A few of these PW's were identified as members of the 804th and 810th Battalions of the 5th NVA Regiment; interrogation revealed that most of them had been left in the area to recuperate from wounds, and had not seen their units for two or three months.

With respect to the southern I Corps Tactical Zone, the first three weeks of September saw ground combat action continue at a light to moderate level in QUANG NAM Province, while enemy activity was generally at a reduced level in QUANG TIN and QUANG NGAI Provinces. The enemy continued to exert pressure on friendly forces throughout the DANANG TAOR during this period. Harassing attacks by fire and limited ground attacks/probing actions again characterized the majority of enemy initiated incidents, with the enemy placing continued reliance on the use of mines and booby traps in an effort to keep friendly forces off balance. Friendly installations and tactical units throughout eastern QUANG NAM were frequently harassed by small amounts of incoming rocket and mortar fire. The heaviest attack by fire was directed against the 5th Marines' regimental command post at AN HOA on 21 September, and consisted of 100 rounds of 82mm mortar fire. Elements of the 1st Marine Division and ARVN Forces engaged squad to battalion size enemy forces in a series of light to heavy contacts south-east of Hill 55 and in the AN HOA Basin during the second and third weeks of the month, inflicting heavy casualties on the enemy units involved. Significant enemy intelligence was produced on 11 September when five PW's from the 21st Regiment, 2nd NVA Division, were captured north of AN HOA by M/3/5 USMC. The capture of these PW's thus confirmed prior reports of the 21st Regiment's movement northward from QUANG TIN Province after its heavy contact with elements of the AMERICAL Division west of TAM KY City between 24-27 August. The confirmed presence of this major enemy tactical unit, along with the 141st NVA Regiment, also identified by a PW captured north of AN HOA area during the middle of the month,

significantly increased the threat of large-scale enemy offensive action against installations in the area including AN HOA and the THUONG DUC Special Forces/CIDG Camp. Friendly sweep operations conducted in the East DANANG area during the middle of the month resulted in the capture of some small weapons caches and the detention of several VC suspects, thus preempting probable future sapper and terrorist activities within the metropolitan DANANG area. One major sabotage incident on 21 September at the LIEN CHIEU ESSO POL storage area northwest of DANANG resulted in the destruction by burning of two large fuel storage tanks.

Scattered harassing attacks by fire and small-scale ground attacks, principally targeted against RF/PF night defensive positions, district and subsector headquarters, and isolated outposts and CIDG Camps, characterized the reduced level of enemy activity which was observed in QUANG TIN and QUANG NGAI Provinces during the period 1-21 September. Scattered incidents of terror and interdiction of friendly LOC's were reported in both provinces. The only significant ground action in QUANG TIN (P) during this time frame was an enemy assault on an engineer working party near TIEN PHUOC on 17 September, which was followed by an ambush of a relief force. This attack resulted in moderate friendly casualties as well as enemy casualties. Friendly operations dominated action on the QUANG NGAI battlefield during this period, with Operation CHAMPAIGN GROVE producing the majority of activity. Of significance during this operation was the discovery by elements of the AMERICAL Division of a buried 105mm howitzer (disassembled), 13 kilometers west of QUANG NGAI City on 12 September. This artillery piece was believed to have been captured when an ARVN outpost near QUANG NGAI City was overrun by the VC in 1965. Subordinate units of the AMERICAL Division inflicted approximately 130 casualties on elements of the 3rd NVA Division in contacts west of QUANG NGAI City on 13 and 18 September.

The period 22-30 September produced the most significant activity in the southern I Corps Tactical Zone during the month of September. The early morning hours of 22 September saw a sharp increase in enemy initiated incidents as forces subordinate to Military Region 5 launched a series of coordinated attacks by fire and ground attacks against vital areas and key installations throughout the southern three provinces, including landing zones, district and subsector headquarters, Special Forces/CIDG Camps and other isolated outposts.

Installations in the DANANG City area receiving incoming mortar and/or rocket fire on 22 September included the DANANG Airbase, Force Logistics Command, NSA Hospital, I Corps Headquarters, and MAG-16 at MARBLE Mountain where 45 aircraft received light to heavy damage. A company size ground attack against the VINH DIEN Bridge north of DIEN BAN in the southern DANANG TAOR resulted in the temporary closing of Route 1, while another bridge northwest of DANANG on Route 1 was blown. Several CAP Units and RF/PF Forces in night defensive positions throughout the southern DANANG TAOR received

squad to company size ground attacks and/or attacks by fire. The THUONG DUC area became the focal point of enemy initiated activity in QUANG NAM (P) near the end of the month as elements of the 21st and 141st NVA Regiments and possible elements of the 31st NVA Regiment and 368B Rocket Regiment exerted strong pressure against the THUONG DUC Special Forces/CIDG Camp and the District Headquarters.

The heaviest activity in the I Corps Tactical Zone was concentrated in QUANG TIN (P) during the latter part of the month. Small attacks by fire were reported throughout the eastern portion of the province on 22 September in conjunction with attacks by fire in QUANG NAM and QUANG NGAI. Accompanying ground attacks were reported against THANG BINH Subsector Headquarters and the TIEN PHUOC Special Forces/CIDG Camp. During the same time period, the HAU DUC Subsector Headquarters, manned by two RF companies and three PF platoons, received an intensive ground attack by elements of the 3rd Regiment, 2nd NVA Division. Heavy fighting during the following two days resulted in 186 enemy KIA. Operation BURLINGTON TRAIL produced the largest contacts as elements of the AMERICAL Division inflicted approximately 376 casualties on elements of the 1st VC Main Force Regiment, 2nd NVA Division, north and east of TIEN PHUOC between 24-26 September.

Installations and landing zones throughout the eastern coastal lowland areas of QUANG NGAI (P) received attacks by fire on 22 September. Hardest hit however, was BINH SON City in the southern CHU LAI TAOR. The enemy fired approximately 100 rounds of 60/82mm mortar fire and 57mm recoilless rifle fire into the city. Six city blocks were set afire and 18 homes destroyed. The attack by fire was followed by a ground attack targeted primarily against the BINH SON PW compound. Ten PW's were killed when they refused to leave the compound. Additionally, 18 civilians and three PF's were killed while 62 PW's and 38 civilians were wounded. Of particular significance was a small mortar attack on the SON TINH Training Center on 22 September in which the enemy employed a non-persistent chemical agent similar to CN/DM gas. This chemical agent produced nausea, dizziness, and unconsciousness in the case of four PF's for a two hour period. The HA THANH Special Forces/CIDG Camp also received a combination attack by fire and ground attack on 22 September during which time one outpost was temporarily overrun. The attacking unit was subsequently identified by a PW as an element of the 22nd Regiment, 3rd NVA Division. The enemy continued to harass the camp throughout the remainder of the month with ground probes and sporadic incoming fire, including 120mm mortar fire. The threat of large-scale attacks against the HA THANH Special Forces/CIDG Camp was increased during the month as a result of the confirmed relocation of the 120th Montagnard Battalion and the 406th Sapper Battalion to the HA THANH area. One noteworthy attack by fire occurred in this area on 26 September when the SON HA Special Sector Headquarters south of the HA THANH Special Forces/CIDG Camp received 47 rounds of 122mm rocket fire, resulting in 10 civilians killed. Probable elements of the 506th A and B Sapper Companies and the 81st LF Battalion conducted a sapper attack against installations in QUANG NGAI City on 29 September, including the city power plant and provincial hospital. At the same time, a small VC force took an unknown

quantity of medicine from the hospital warehouse, located two kilometers west of the city, and then burned the building. The enemy continued his campaign of terror against refugee camps and hamlets in the eastern coastal lowlands of the province throughout the latter part of the month. Small groups of VC terrorized hamlet residents, indiscriminantly shooting innocent civilians and burning their homes in an effort to demonstrate an inability on the part of the GVN and Allied Forces to defend the people. The most noteworthy of these incidents occurred on 30 September when an unknown number of enemy entered the LA HA Refugee Camp, four kilometers southeast of QUANG NGAI City and burned 40 homes. Thirty homes were 100 percent destroyed while the remaining 10 homes were 50 percent destroyed.

d. Counterintelligence.

(1) PROPAGANDA AND SUBVERSION. VC propaganda activity was at a low level during early September as adverse weather conditions restricted their operations. However, a steady increase as the month progressed resulted in an overall increase over the previous reporting period. Primary efforts were directed towards GVN refugee and resettlement camps and at soliciting logistical support for VC/NVA forces. The media of communication utilized included leaflets, signs, personal appeals, drama and music shows, and loudspeaker broadcasts. Of particular interest was an analysis of VC propaganda which indicates that the VC are concerned over their internal morale problem and have intensified and redirected their own psyops efforts to remedy the situation.

Political activity increased steadily over the past month with continued efforts to improve population control and extend VC influence through formulation of Liberation Committees and People's Revolutionary Councils. Also of significance was the revitalization of the Alliance for National Democratic Peace Forces (ANDPF), ostensibly as an independent organization with an anti-GVN/anti-U.S. orientation, but in actuality a subsidiary of the NPLSVN. Associated with these programs has been a widespread and increasing effort to indoctrinate as much of the population as possible in elections procedures. It is apparent that the VC have recognized the possibility of a negotiated settlement in South Vietnam and are preparing their political organization for the fullest exploitation of any situation.

(2) TERRORISM. The level of terrorism was high in early September, declined in mid-month, and surged upward again at the end of the month. A significant overall increase was noted over the last month. The VC continue to use terrorism as a means to gain the support of the people, particularly those in resettlement camps and those having relatives in VC-controlled areas.

Of interest is the use of terror in conjunction with propaganda. This continuing use by the VC of the "carrot and the stick" tactic, employing a mixture of persuasion and coercion to condition the populace, is apparently meeting with limited successes as U.S. agencies report problems in pacification programs in the coastal lowlands.

(3) ESPIONAGE AND SABOTAGE. The level of both espionage and sabotage activity remained generally equal to levels during August. Inclement weather, friendly spoiling operations, preoccupation with the rice harvest and an emphasis on political activity apparently inhibited an expansion of espionage and sabotage activity. Women and children, usually with little training, continue to be utilized in collection efforts, although several reports of training courses have been received. Two espionage teams, comprised of sergeants or above who were graduates of the HAI PHONG Intelligence School (NPN), were reported operating in the Corps area. This is the first recent report of this type of espionage agent operating in I Corps.

During the first three weeks of September, sabotage activity was at a low level with emphasis on the disruption of LOCs. However, a noticeable increase during late September was highlighted by a sapper attack on the DANANG ESSO Fuel Farm, continued efforts to interdict shipping in the CUA VIET area, and a sapper attack on a U.S. Naval facility at SA HUYNH (QUANG NGAI). VC sappers continue to demonstrate a capability to recognize and exploit vulnerable targets.

e. Enemy Losses. Enemy losses during the month of September were as follows:

(1) The logistical posture in ICTZ remained satisfactory during the month of September. Inclement weather in the form of tropical storm BESS and typhoon ELAINE interfered temporarily with movement of cargo by air, land and surface, causing a decrease in total cargo shipped and an increase in cargo staged at Danang.

(2) Colonel O. R. DAVIS was assigned as Deputy G-4, III MAF on 12 September 1968.

b. Dental.

(1) Dental Civic Action (DENTCAP) conducted by III MAF Dental Companies during the month of September was as follows:

Patients Treated:	750
Dental Procedures:	2,160

(2) Force Dental Officer, FMFPac visited III MAF dental facilities 16Sep - 21Sep68.

(3) Periodic visits to III MAF dental facilities, NSA Station Hospital, 95th Evacuation Hospital and 1st Logistic Command, US Army were made by the Force Dental Officer throughout the month of September

c. Embarkation.

(1) Air LOC. Airlift for the reporting period was about normal with the following exceptions: Marine KC-130's flew JP-4 to An Hoa for various periods due to damage to Liberty Bridge and the limited ferry capabilities at this point for convoy traffic. Air operations ceased on 5 September due to tropical storm BESS and the period immediately following showed an increase in operations to cover the period. Mo Duc airfield VI-209 was opened for C-7A operations. Duc Pho was closed to aircraft with the exception of C-7A, due to runway repairs. Mai Loc was closed due to extremely muddy runway conditions. Airdrops were conducted at Ha Thanh during the period 1-13 September.

(2) Sea LOC. Due to weather conditions there was a marked decrease in cargo shipped by surface in ICTZ during the reporting period, resulting in an increased amount of cargo staged at Danang. The Cua Viet channel was closed to LST traffic for 10 days and the Tan My channel was closed to LST's indefinitely due to tropical storm BESS. Typhoon ELAINE curtailed shipping for three-days. There was no adverse enemy

action affecting surface shipping during September.

(3) Road LOC. The Hai Van Pass and portions of Route 1 north of Lang Co were closed from 5 September to 7 September as a result of damage caused by tropical storm BESS. One culvert was washed out on the south side of Hai Van Pass and there were five major washouts on the north side of the Pass. Highway operations during period included 43 resupply missions, 34 retrograde missions and 4 unit moves.

(1) Road and Bridge Resume. Damage to LOC structures by enemy interdiction remained moderately light throughout the month, with 8 bridges being damaged or destroyed and 16 culverts being damaged. The most significant of the bridges damaged was the destruction of two spans of the new Song Cau Lau Bridge on route QL-120 kilometers south of Danang. Priority contractor repairs are being effected with an estimated completion of mid-December 1968. The 1040 foot Hue floating bridge, part of which was sunk during August, has been removed from the site. Major salvage operations are still being attempted in order to recover the remaining pontoons which are buried by sand and silt on the bottom of the river. Upgrading efforts throughout the ICTZ yielded 7 bridges constructed, 37 culverts emplaced, and 825 feet of tactical bridging installed. Upgrading, repair, and maintenance of other LOCs within the ICTZ has continued. The VNRS has commenced rehabilitation of the railline between Danang and Hue, with an estimated opening planned for early 1969.

e. Food Services.

(1) Cost of feeding increased for the month of August due to the increased issue of MCI's and daily fed "C" Rations.

(2) Ice receipts improved and little difficulty was experienced in supporting requirements.

(3) LtCol L. P. DAY assumed duties as Force Food Services Officer.

(4) The FMFPac Food Team arrived in country and was employed at 1stMAW during Sep 1968.

(5) Approximately 92,891 gallons less milk was issued in the month of August than in July. This includes the Army units drawing from FLC dumps.

(6) The III MAF Subsistence Operational Analysis Report for August was submitted to HQMC on 20 Sep 1968. Difficulty in receiving and correcting reports from Ration Dumps caused the delay.

b. Civic Action.

(1) Military Civic Action continued to have an upward trend in the month of September. Populace gaining more interest in improving and initiating new self-help projects. District officials continue to have greater interest in improving health, education and commerce of their districts. Coordination of Civic Action projects continues at all levels among US/FWMAF, RVN and GVN officials. MEDCAPS throughout I Corps increased by 20,097 for a total 197,244 treatments while DENTCAPS decreased 710 for a total 9,650 treatments. The increase in treatments shows more interest by populace in regard to their health. New areas were inaugurated to MEDCAPS and DENTCAPS. During the period 43 major Civic Action projects were completed.

(2) Recent typhoon damage in Quang Tri and Thua Thien Provinces during September helped to show emergency aid capability of the Civic Action Program. Civic Action teams from each area hit by the typhoon issued commodities such as food, blankets and materials for rebuilding of homes lost or destroyed. Helicopters were furnished to assist District officials for an aerial survey to assess the damage caused by the typhoon.

**SECRET**(3) Narrative.

(a) 1st Marine Division. Eleven Scouts were graduated from the 1st Marine Division KCS "Boot Camp" during the month and assigned to Marine units in the field.

(1) During the period, 19-21 September, a Kit Carson orientation course was conducted with eleven Marines attending. Orientation emphasized methods of KCS employment, KCS role and status when working with Marine units, and administrative responsibilities of employing units. Course was received with enthusiasm by attendees. Present plans are to conduct classes on a regular basis to improve understanding, tactical employment of the KCS, and administration peculiar to the KCS program.

(b) 3rd Marine Division. Due to flooding of the 3rd Marine Division KCS training center as a result of typhoon "Bess", graduation ceremony scheduled for 12 September was delayed until 29 September. Twenty three scouts received completion certificates and were assigned to the field.

(c) 1st Air Cavalry Division. Three Kit Carson Scouts completed training and were assigned to the 52d Infantry. Their performance as members of long range recon patrols has not been evaluated at this time.

(d) 101st Air Cavalry Division. Scouts are reportedly well accepted by units of the 101st Air Cavalry Division. Soldiers working with the Scouts have been favorably impressed with their performance and ability.

(e) Americal Division. On 12 September 1968, KCS Vo Ngan, assigned to "B" Company 4/3 Infantry, 11th Brigade of the Americal Division, assisted in locating and recovering a captured 105MM Howitzer (M2A1) by working with two Hoi Chanhs who had reported knowledge of where the gun was buried by the VC/NVA.

(f) 1st CAG. The KCS continue to be a great asset to CAP units. One squad leader stated, "My Kit Carson Scout has been with me for six months and has been instrumental in the majority of VC kills and captures in our area." 1st CAG also reports that the KCS have consistently identified VC that would have otherwise gone unnoticed by Marines.

(1) Lessons Learned. KCS dressed in civilian clothing have been employed effectively by Marine units to identify and apprehend VC sympathizers.

(2) Problems Encountered.

(a) Kit Carson Scouts receive undue harassment from ARVN military police. Even with proper identification and leave authorization, KCS have been verbally abused and unnecessarily detained. Further liaison regarding this situation will be made with appropriate ARVN officials.

g. Narrative Summary.

(1) General.

(a) Regional weekly PSYOP Conferences were held 2, 9, 27, September with representatives I Corps, III MAF, CORDS/PSYOP, 7th PSYOP Bn., Flt "A" 9th SOS, Chieu Hoi, and VIS attending. Agenda items included: Promotion of Cultural Themes Contest in support "Denounce VC Infrastructure" Campaign, Operation of PSYOP Intelligence Coordinating Committee, PSYOP support of flood recovery project and PSYOP aspects of ARVN Civic Action projects.

(b) First Marine Division reported that five members of 1st Recon Battalion team became separated from their unit due to heavy contact with enemy forces. A Flight "A" 9th SOS 02-B aircraft located the missing Marines and succeeded in marrying them up with the main body of the patrol by employing the aircraft's loudspeaker system to direct them. This incident, one of at least five such reports in recent months, reflects the resourcefulness and capabilities of PSYOP-mission aircraft when employed in unusual roles.

(2) Chieu Hoi Campaign. I Corps Chieu Hoi Campaign continues on an upward trend over the 1967 level. September 1968 rallies total 371 as compared with September 1967 total of 73; CY 1968 total as of 30 September is 2326, as compared with 2539 total for all of 1967.

(3) Anti NVA Campaign.

(a) Several recent reports reflect increasing difficulties of the enemy in procuring food in eastern Thua Thien. A rallier from 2d Battalion 803rd NVA Regiment stated that his unit had to displace from operating areas in order to acquire minimum food supply necessary to sustain life. A concerted and extensive GVN/FWMAF PSYOP Campaign is underway in eastern Thua Thien province to exploit this vulnerability.

(b) Identified vulnerabilities of NVA troops positioned in the HA THANH and THUONG DUC Special Forces Camps areas were targeted with specially tailored leaflets and broadcasts.

(4) Anti VC Campaign.

(a) "Denounce VC Infrastructure" (DVCI) Campaign continues throughout I Corps with dissemination of specially designed leaflets, and full (VIS) newspaper and radio coverage. This campaign is based primarily on patriotic motivation reinforced with monetary rewards for information resulting in live capture of key VC political infrastructure.

(b) In response to a letter from the VC Farmer's Association leader of TRIEN SON (V), TRIEU PHONG (D), stating to the 1st Air Cavalry that she wanted to rally but would need assistance to escape the VC of her hamlet, a successful extraction was accomplished which resulted in a safe recovery of the rallier and also the capture of an unspecified number of VC sympathizers. The Hoi Chanh stated she rallied (1) because she had heard and believed the GVN's Chieu Hoi appeals and promises, (2) she was disillusioned by Soviet Russia's occupation of Czechoslovakia and (3) existence within the VC was miserable and she was in constant fear of death.

(5) Support GVN Campaign.

(a) A Regional CORDS/PSYOP report noted that, during a GVN/US Civil/Military operation in VINH LOC District, several village chiefs voluntarily assisted allied forces in classifying innocent and enemy personnel in their communities. This report cited this action as a demonstration of renewed confidence in the GVN by local officials of an area long dominated by the enemy.

(b) NAG (1stCZ) reported continuation of VNN/USN PSYOP campaign targeting audiences in coastal areas. The campaign emphasizes pro-GVN themes delivered primarily by "face-to-face" communication, and is supplemented by broadcasts and leaflets dissemination. This program, which reaches coastal residents otherwise isolated from our PSYOP activities, has resulted in a number of ralliers.

(6) Civilian Rewards Campaign. A total of 750 incidents of rewards payments were reported during the month to Vietnamese Civilians for information leading to recovery of ordnance materials/ammunition. A total of 694,610 \$VN was paid to the informants.
